## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, 4, 5 and 37-40 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Sutoh et al.

### *Claim Rejections - 35 USC § 103*

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3, 6 and 28-33 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sutoh et al. The recitations regarding the labeling of the outlets are considered, in absence of a statement regarding criticality or new and unexpected results, a matter of mere engineering design choice and therefore obvious depending upon criteria such as the mere choice of the placement of the defrost, panel outlets, etc. and the like within the vehicle. As to claim 6, it is a matter of design choice for the lower air and defroster outlet to be separated by a single wall rather than the two walls as shown in Figures 1 and 3.

Art Unit: 3749

***Allowable Subject Matter***

5. Claims 7, 8, 34, 35 and 41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 9-27, 36 and 42-49 are allowed.

***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
